Within the boundaries of this heavily forested national park, 16 crystalline lakes tumble into each other via a series of waterfalls and cascades. The mineral-rich waters carve through the rock, depositing tufa in continually changing formations. Clouds of butterflies drift above the 18km of wooden footbridges and pathways that snake around the edges and across the rumbling water.

Split is a great place to see Dalmatian life as it's really lived. Always buzzing, this exuberant city has just the right balance between tradition and modernity. It's heart – the Diocletian's Palace is a Unesco World Heritage Site and one of the world's most impressive Roman monuments.

Trogir is set within medieval walls on a tiny island, linked by bridges to both the mainland and to the far larger Čiovo Island. The old town has retained many intact and beautiful buildings from its age of glory between the 13th and 15th centuries. In 1997 its profuse collection of Romanesque and Renaissance buildings earned it World Heritage status.
